Rohit Dhondage

Software Developer

Phone: +91 7499275697 City: Nashik, Maharashtra Email: rohitdhondage110@gmail.com LinkedIn: linkedin.com/in/rohit-dhondage GitHub: github.com/rohit-dhondage LeetCode: leetcode.com/u/Dhondage96K

Summary

Software Developer with hands-on experience in backend development using Java, Spring Boot, Spring Security, and MySQL, and frontend development using React.js. Built and deployed full-stack applications with REST API design, JWT authentication, and relational database integration. Strong foundation in Data Structures and Algorithms, with 180+ problems solved on LeetCode. Seeking a Software Developer role to apply backend engineering and problem-solving skills in a production environment.

Education

Bachelor of Engineering in Information Technology **2024 – 2027**
Pune Vidyarthi Griha's College of Engineering, Nashik *CGPA: 8.18 / 10*

Diploma in Computer Engineering **2021 – 2024**
Matoshri College of Engineering, Nashik *Percentage: 89%*

10th (SSC) **2019 – 2020**
KRTH High School, Mohadi, Nashik *Percentage: 79%*

Experience

Java Backend Developer Intern **Dec 2025 – Feb 2026**
Company: SoftCrowd Technology

- Designed and developed 15+ REST API endpoints in Java using Spring Boot for user and order management modules.
- Built and integrated a JWT-based authentication and authorization module with Spring Security and MySQL.
- Wrote and optimized SQL queries with Hibernate/JPA, improving order-listing endpoint response time by 30%.
- Participated in debugging, code reviews, and Git-based version control workflows during Agile sprints.

Android Intern **June 2023 – Sept 2023**
Company: InnovationHub Services Pvt. Ltd.

- Developed Android application features in Java using Android Studio, integrating REST APIs for data retrieval.
- Assisted in debugging, UI improvements, and cross-team collaboration on mobile application modules.

Technical Skills

Languages: Java, C, C++, SQL, Python
Frontend: HTML5, CSS3, Tailwind CSS, JavaScript, React.js
Backend & Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate, REST API Development, JWT Authentication
Databases: MySQL, MongoDB, Firebase
Cloud & DevOps: AWS (EC2, S3)
Core Concepts: Object-Oriented Programming (OOP), DBMS, Data Structures & Algorithms (DSA), Problem Solving
Tools & Platforms: Git, GitHub, Maven, Postman, VS Code, Android Studio, Vercel

Projects

VG Delivery | *Java, Spring Boot, React.js, Hibernate, MySQL, JWT, Razorpay API* Live | GitHub

- Built a full-stack vegetable delivery platform with product catalog, cart, and order management; deployed live on Vercel.
- Designed REST APIs in Spring Boot for product listing, order lifecycle, and JWT-secured authentication.
- Integrated Razorpay API for end-to-end payment processing and MySQL/Hibernate schema for orders and users.

InterviewIQ | *Java, Spring Boot, Spring Security, JWT, MySQL, OpenAI API, Maven* GitHub

- Built an AI-powered interview preparation platform that parses uploaded resumes (PDF) and generates role-specific interview questions via the OpenAI API.
- Designed secure backend APIs with Spring Boot and Spring Security (JWT) for user session and request management.

Certifications & Achievements

- Certified in Java and Data Structures & Algorithms (DSA).
- Special Prize Winner, Blockwerse Hackathon.
- Solved 180+ coding problems on LeetCode (arrays, strings, dynamic programming, graphs).
